Lighthouse Interactive is part of SilverBirch Inc.'s (SVB:TSXV) video game division.

### **GAME SUMMARY**

In the 17<sup>th</sup> century, European powers created East India companies – nations within nations that conquered cities, local towns, and villages to establish large commercial centres. In *East India Company*, you will assume the role of Governor Director of one of the East India Companies or other rival companies. There are eight nationalities to choose from: British, Dutch, French, Danish, Portuguese, Swedish, Italian or Spanish – with the goal of bringing new colonies and wealth, such as: tea, spices, gold, diamonds, and other precious cargo back to Europe, but you must dominate the other rival empires along the way. With mighty fleets and armies at your command, the power to choose between diplomacy and war is yours.

Starting modestly, you will build your fleet, establish connections to far away countries, and keep the rivalling nations at bay. Choose from an array of ship classes, types of transport, and military vessels: the Cutter, East Indiaman, Flute, Frigate, Ship of the Line or Xebec. Create different fleets and assign them to specific trading routes. Controlling well situated ports and upgrading them is one key to success.

Conflicts and wars are inevitable. When hostile fleets engage each other, the spectacular naval battles are fought at a real-time tactical level. Devastating broadsides are fired with a deafening roar and cannon balls tear through enemy

ships and their crew. At tactical level, you command ships in your fleet in RTS-mode or can take direct command of any of your ships to experience the battle up close and personal. Create a trading empire that will rule above all others!

## **FEATURES**

### **Manage!**

- Hire and manage your own crew
- Buy guns and ammo
- Repair and upgrade your ships at port
- Trade goods (tea, spices, gold...)
- Establish profitable trading routes
- Open diplomatic relations or declare war
